

PANORAMA

NEWSLETTER - ARMY PUBLIC SCHOOL, MHOW

APR - DEC 2015-16

PRINCIPAL'S MESSAGE

It gives me immense pleasure to bring forth the first edition of 'Panorama'. The newsletter aims towards honing the creative skills of our budding writers and artists. It will also apprise the parents about the activities of the school and give them a glimpse of our school. I congratulate all the students who have contributed towards its publication.

MESSAGE FROM THE STUDENT EDITORIAL BOARD

This is the first Newsletter of Army Public School, Mhow. It has been named 'Panorama' as it is going to give us the full picture of our School's activities and news. Its an honour to be able to write this editorial for the first edition of Panorama as it is just the beginning filled with great moments and achievements that we can now document. We have all had a really great time working together, exploring ideas and brainstorming. It taught us how to work as a team and it was definitely a great platform to put our views and ideas on paper. We hope everyone sees this as a way to showcase their creativity. We were delighted to see the enthusiasm everyone displayed and hope this continues.

COUNSELLOR'S MESSAGE

Dear students,

"A bird sitting on a tree is never afraid of the branch breaking, because her trust is not on the branch but on its own wings. Always believe in yourself."

I feel honored when I see all of you achieving laurels in your own respectable fields, like sports, fine arts, Khoj (So many scientists in the making!), winning The Bournvita Quiz and so many more. Each of you is precious. Persevere and you will surely see yourself, where you had intended to be. Remember, "Never to give up."

Mrs. Vinisha

RANGOLI COMPETITION IN PROGRESS

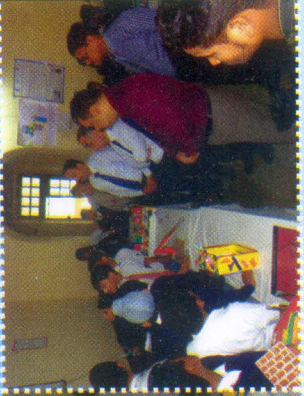

CHILD LABOUR PROJECT

2

Child labour is a burning issue in today's society. The students of Army Public School, Mhow got an opportunity to visit nearby slum areas. This opportunity was a real eye opener which exposed us to the plight of today's young generation and when they should be using pencils and reading books they are being exposed to the harsh realities of life and very little is being done about it. This made us realize that being the privileged lot, we have to be the ones to bring about a change and be there for children to help them and to take them out of the shackles that they are in and set their souls free with the gift of life. We had conversations with these families and found out the conditions and situations because of which even young children have to work for money. We all hope this survey would show to us all how lucky we really are and motivate us to do good, both for ourselves and as well as the society.

KHOJ

Khoj is an annual science exhibition organized in Army Public School, Mhow. It took place this year on 7 November, 9 AM. Khoj is an amazing way for students to showcase their scientific curiosity and creativity. Our students delighted everyone once again with their out of the box science projects. For example, an eco friendly refrigerator, a birthday telling machine, recycling of waste and other projects.

Brig Raj Kapoor, MCTE, came to judge the projects and asked the students various questions about their respective projects, which they answered amiably. A book fair was also organized by Vijay Gore sir which had a variety of Encyclopedias, fiction and non fiction books for all the literary lovers. The results of Khoj were announced during the Children's day celebrations.

BOURNVITA QUIZ CHAMPIONS

It was a very proud moment for us when Adwiteeya Bhatti and Gandhar Kalgaonkar of Class VIII bagged First Position in the city level round of the Bournvita Quiz Contest held at Daly College, Indore on 16 Oct 2015. Our Quiz Team is one of 16 schools across India to have qualified for the Finals to be held in Kolkata in January.

ROBOTICS

The student members of the Robotics club of our school got a chance to widen their horizons at a Robotics workshop held at MCTE (Military College of Telecommunication Engineering).

Held on 31 July 2015, this workshop had eminent speakers from the team of Centre of Artificial Intelligence And Robotics (CAIR), Bangalore led by Dr. Dipti Deodhare who also delivered talks on robotics. A demonstration of various robots developed by artificial intelligence and robotics lab at MCTE was also held during the workshop which gave the students exposure to the working of these robots such as that of the autonomous hex copter, robotic arm and humanoid robots including other indoor and outdoor bots.

This workshop gave the students intensive exposure to robotics outside of class which was needed for them to think out of the box. The robotics workshop renewed their motivation and helped them dig a little deeper into their intellect, at the same time aided in developing better synergy and awareness.

खेल समाचार

3

आर्मी पब्लिक स्कूल के छात्रों ने खेलों में जी तोड़ मेहनत कर सफलता हासिल की।

NATIONAL KARATE CHAMPIONSHIP

National Karate Championship was held in Goa. In this Championship nine students participated from our school. The children won 12 medals - 3 Gold, 2 Silver and 7 Bronze. Kudos to our peers.

ENGLISH LANGUAGE LAB

The English language Lab proved to be a success in the school. We have benefitted a lot from the lab. The primary wing students have been given training in English speaking skills. Also foreign officers from Myanmar, Srilanka were trained in the nuances of the English language.

CLASS XII RESULT

At 12:10 PM, 26 May 2015, the CBSE class XII results were announced.

By 12:11 PM, almost all of our students had seen their result

By 12:12 PM, some were crying and some were laughing.

By 12:15 PM, the parents were enlightened about their child's performance and all of them were overjoyed and proud.

Soon the news reached our school and we were proud of our students.

Alankrit Kaul Sahib (94.4%), Ananya H Nair (98.8%), Akash Mandloi (92.4%), Pankaj Verma (92%) and Ajay Singh (90.8%) were the toppers of the Science stream.

Shikhar Agrawal (94.8%), Kushal Punia (93.2%), Tushar Khandelwal (93.2%) and Namrata Bhadouria (92.8%) were the students who topped in the Commerce Stream.

Malvika Tiwari (89.4%) topped in the Humanities stream.

We believe in each and every one of our seniors and we know that everyone of them is going to do well for themselves.

Congratulations!
